Did you know?

FACT

The average six room house collects 40 pounds of dust each year.

—*Discover Magazine*

FACT

Nine out of 10 system failures are caused by dirt and dust.

—*Louisiana Cooperative Extension Service*

FACT

Clean systems restore capacity and lessen running time. Translation: Savings on monthly heating and cooling bills.

—*Louisiana Cooperative Extension Service*

FACT

A buildup of .042 inches of dirt on a heating or cooling coil can result in a decrease in efficiency of 21%.

—*Environmental Protection Agency*

FACT

Most commercially purchased fiberglass filters are only 7% efficient in stopping dirt, dust, pollen, etc. from passing through.

—*American Society of Htg., AC. Engineers*

FACT

50% of all illnesses are either caused or aggravated by polluted indoor air.

—*American College of Allergists*

FACT

Children are more likely than adults to be affected by polluted air; they breathe faster, inhale more air per unit body of weight, and are closer to the ground where concentrations are higher.

—*Department of Consumer Affairs*

FACT

Most people spend 60 to 90% of their time indoors.

—*American Lung Association*

FACT

One out of every six people who suffer from allergies do so because of the direct relationship to fungi and bacteria in the air duct systems.

Please feel free to contact us anytime for information concerning your indoor air quality. We look forward to helping you have a healthier and cleaner indoor environment.
